Residency: Preference in appointment may be given to successful candidates who have been, at the time of examination and for at least one month prior thereto, a resident of the jurisdiction in which the vacancy exists.

Minimum Qualifications: Graduation from a regionally accredited or New York State registered college or university with at least a Bachelor's degree in Civil Engineering.

SPECIAL REQUIREMENT FOR APPOINTMENT : Possession of a New York Professional Engineer's License at time of appointment.

Duties: The work involves providing civil engineering services for town public works projects.

Duties are performed under the general direction of the Town Board. A Town Engineer does related work as required.

Subject of Examination: A test designed to evaluate knowledge, skills and /or abilities in the following areas:

Preparing written material - These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

Principles and practices of civil engineering - These questions test for knowledge of engineering concepts and their practical applications to the construction, operation and maintenance of public works projects, including roadways, bridges, buildings, water and sewage systems and similar types of infrastructure.

Engineering plans, specifications and estimates - These questions test for knowledge of and the ability to read and interpret construction drawings and technical specifications, and for the ability to calculate cost and quantity estimates from technical presentations and/or engineering and construction drawings. Knowledge of estimating techniques and the proper method of construction for specified projects will be required.

Methods and materials of construction - These questions test for knowledge of the proper procedures and materials used in the construction, maintenance and repair of various types of public works projects, including such typical construction work as excavations, roadways, embankments, and building and related structural improvements.

Surveying principles and practices, including map interpretation - These questions test for knowledge of the concepts, computations and proper procedures involved in performing surveys for construction projects and land areas, including the use of theodolites, total stations, automatic levels and other contemporary field survey equipment; and for the ability to read, analyze and perform technical computations based on site plans and topographic and survey maps.

Test guide: The New York State Department of Civil Service has not prepared a test guide for this examination. However, candidates may find information in the publication 'General Guide to Written Tests' helpful in preparing for this test. This publication is available on line at: <https://www.cs.ny.gov/testing/testguides.cfm>.

Use of calculators is **recommended** for this examination.
