Scopes / Subjects of Examination: A test designed to evaluate knowledge, skills and /or abilities in the following areas.

Preparing Written Material

These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

Administrative Supervision

These questions test for knowledge of the principles and practices involved in directing the activities of a large subordinate staff, including subordinate supervisors. Questions relate to the personal interactions between an upper level supervisor and his/her subordinate supervisors in the accomplishment of objectives. These questions cover such areas as assigning work to and coordinating the activities of several units, establishing and guiding staff development programs, evaluating the performance of subordinate supervisors, and maintaining relationships with other organizational sections.

Fire Prevention

These questions test for a knowledge of fire prevention methods, principles, practices, and equipment. The questions cover such areas as the following: alarm systems; automatic smoke/fire detectors; automatic sprinklers; standpipes; dealing with building owners and managers; fire hazards; fire prevention education; and inspection of buildings.

Firefighting Practices and Equipment

These questions test for a knowledge of firefighting methods, principles, practices, and equipment. The questions cover such areas as the following: aspects of the Incident Management System; building materials and construction types; direction of subordinate firefighters; communications at emergency incidents; accountability; fire cause and origin; building inspections; extinguishing agents and application procedures; fire behavior characteristics; fire suppression; hand and power tools; hazardous materials; weapons of mass destruction; hoses, nozzles, and water streams; ladders and elevating platforms; self-contained breathing apparatus (SCBA); fire scene size-up; and ventilation.

Rescue Techniques and Basic Emergency Medical Response

These questions test for a knowledge of rescue techniques and basic emergency medical treatment. You will be presented with brief descriptions of various fire, rescue, and personal injury and illness situations. Each situation will be followed by one or more questions that cover such areas as the following: triage; bleeding; broken bones; burns; respiratory failure; cardiac failure; rescue-related tools; knot tying; rescue and associated EMS equipment.

Principles and Practices of Staff Development and Training

These questions test for the knowledge and abilities used to develop and deliver training. They address topics such as the assessment of training needs; instructional design; training methods and techniques; the use of training aids, materials, and technology; motivation; learning theory; classroom management; the evaluation of learning outcomes; and the usage of training-related data.
